

# Invitation

10<sup>th</sup> Conference on High Temperature Filtration  
September 13<sup>th</sup> - 15<sup>th</sup>, 2011, Hotel Krallerhof\*\*\*\*S, Austria

**P84**

Evonik. Power to create.

# The Conference will deal with the main topic: Industrial growth at reduced emissions - facts or fiction?

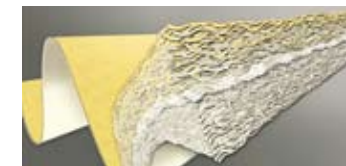

After difficult and challenging times, national economies and commercial trends are finally showing upwards. Together with China and Brazil, Europe and N-America are on the rebound again and show positive signs of recovery. Environmental technologies and their related industries are one of the driving forces to create jobs and opportunities for the future. The demand for environmental technology and know how in emerging markets and countries like China and Brazil is huge and legislation tightens the grip to reduce and control emissions dramatically.

A growing population and ever expanding cities create a situation which makes it impossible to accept pollution as the only alternative to generating jobs. To find the right balance between these two extremes and to discuss the options and technologies how to improve the situation is the main topic of our 10<sup>th</sup> conference in Austria.

Experts from related industries will share their thoughts and experiences with the audience and offer you the opportunity to meet them in privacy and discuss solutions to evaluate commercial possibilities.

This conference offers the participants a unique opportunity to exchange ideas with professionals who are able to share an indepth view on the actual situation within their economies and markets. Don't miss this opportunity, sign up today.

# Hotel Krallerhof \*\*\*\*<sup>s</sup>, Leogang, Austria

## Location of the Congress

There is no better place than staying in the lovely mountain resort of Leogang in the heart of Austria just a short drive from Salzburg. At the Krallerhof hotel you will enjoy outstanding hospitality in an atmosphere of luxury and well-being and which offers all the amenities you can expect from a \*\*\*\* de Luxe hotel plus the personal attention from the staff which makes you feel right at home from the first minute of your arrival.

So why not bring your partner with you and enjoy an extended weekend in the beautiful scenery around the hotel. You can even go skiing to the Kitzsteinhorn at Zell am See where the glacier skiing area is open 12 months a year.

During the conference we offer a ladies program with daily activities and visits to points of interest. Check out our special rates for your partner and let us know if you have any additional wishes regarding room reservation or an extended stay.
